

**RESEARCH ASSOCIATE (POST DOC)
FOREST ECOLOGIST/SILVICULTURIST
Oregon State University, Corvallis**

Position #: 0005169

Research Associate (Post Doc) in Silviculture/Forest Ecology, Department of Forest Ecosystems and Society, Oregon State University. This is a full-time (1.0 FTE), 12-month, fixed-term position.

Position Summary: Coordinate, develop, and implement study plan for cooperative research with the US Forest Service, Pacific Northwest Research Station, examining the integrated effects of forest management treatments and climate variation on forest vegetation, stream habitats, and headwater amphibians in western Oregon. Develop quantitative models examining multivariate associations among forest stand and stream characteristics, and to project potential future conditions with alternative forest management and climate scenarios. In conjunction with the PIs, develop research questions, implement data management and database development, and statistical analyses to address these questions, and interpret the results. Cooperate with other researchers to facilitate related research activities. Perform literature search, write up progress reports, and participate in the preparation of publications.

For review of the full position announcement, or to apply: <http://www.oregonstate.edu/jobs> and posting #0005169. For additional information, contact Dr. Klaus Puettmann (tel. 541-737-8974, email klaus.puettmann@oregonstate.edu). You will be required to upload the following documents when applying: 1) letter of application with statement of interest, 2) vitae (resume), 3) examples of your publications if available, 4) unofficial copies of transcripts, and 5) contact information for three references including names, email addresses, and telephone numbers. For full consideration apply by March 1, 2010. For questions regarding the application process, email Jeannette Harper at jeannette.harper@oregonstate.edu or phone 541-737-6554.
